

Keep Yapping & Everyone Escapes

FIELD MANUAL — EASY-READ EDITION

Print me. Hand me to the Handler. Never show the Agent.

Handler Briefing

You are the **Handler**. Your partner is the **Agent**. The Agent sees the puzzle. You see the rules. Talk to win!

1. Ask: "What puzzle do you see?"
2. Find that puzzle in this book.
3. Ask about colors, shapes, and letters.
4. Say one step at a time.
5. Not sure? Ask again. Asking is always safe.

The app calls easy puzzles Rookie, medium Agent, and hard Mastermind. Some rules only appear on harder missions — those parts are labeled.

TIP Rule lists always go in order from the top. Use the FIRST rule that matches, then stop.

Contents

- 1 Laser Grid Bypass
- 2 Crack the Safe
- 3 Code Room
- 4 Password Intercept
- 5 Alarm Bypass

PUZZLE 1

Laser Grid Bypass

Practices: Following directions · Describing & directing · Clarifying & repair

The Agent sees wires. Each wire has a color, a pattern, and one letter. First ask: "How many wires?" Then use that list below. Go rule by rule. Stop at the first rule that fits.

plain / solid

striped

dotted / dotty

zigzag

The four wire patterns.

- Wire 1 is at the top.
- Wire numbers do not change.
- Ask about colors, patterns, and letters.

4 wires

Use the first rule that fits.

1. If only one wire is striped, cut that striped wire.
2. If you see zero crimson wires, cut wire number 2.
3. If the last wire is teal, cut the last wire.
4. If any wire has a vowel letter (A, E, U), cut the first wire with a vowel letter.
5. If no rule above worked, cut wire number 3.

5 wires

Use the first rule that fits.

1. If only one wire is dotted, cut that dotted wire.
2. If the first wire is zigzag, cut wire number 4.
3. If you count 2 or more violet wires, cut the lowest violet wire.
4. If no wire has a vowel letter (A, E, U), cut wire number 1.
5. If no rule above worked, cut the first wire with a vowel letter.

6 wires

Use the first rule that fits.

1. If there is only one silver wire, cut the first silver wire.
2. If zero wires are plain, cut wire number 5.
3. If the last wire is amber, cut wire number 2.
4. If any wire has a vowel letter (A, E, U), cut the first wire with a vowel letter.
5. If no rule above worked, cut the last wire.

Second cut (hard missions only)

Hard missions need two cuts. After cut one, use this list. If that wire is already cut, cut the lowest wire that is left.

Use the first rule that fits.

1. If your first cut was a striped wire, cut the last wire.
2. If your first cut was silver, cut wire number 1.
3. If your first cut had a vowel letter, cut wire number 3.
4. If no rule above worked, cut wire number 4.

TIP Not sure? Ask the Agent to say the wire again. Asking is smart!

PUZZLE 2

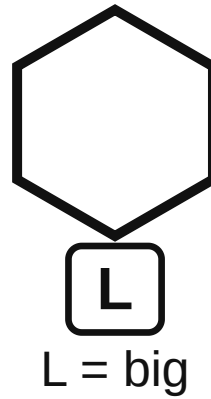

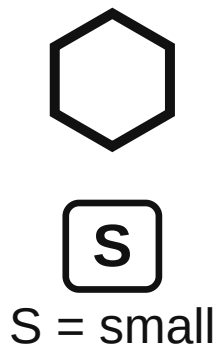

Crack the Safe

Practices: Describing & directing · Vocabulary & categories · Clarifying & repair

The Agent sees gems in a row. Under the gems is a number pad. Each gem has a shape, a mark, and a size tag (S or L). Ask about one gem at a time: "What shape? What mark? S or L?" Use the table to get each number. Then tell the Agent the code.

	No mark	Band (stripe)	Middle dot
teardrop (rain drop)			
star			
hexagon (6 sides)			
ring (donut)			
wedge (triangle)			

All the gems and marks.

S means small. L means big.

- Gems go left to right. Gem 1 is on the left.
- Every gem has a tag: S or L.
- Ask about shape, mark, and tag.

Step 1 — Find the number

Find the shape. Then find the mark. That is the number.

Shape	No mark	Band (stripe)	Middle dot
Teardrop (rain drop)	0	5	8
Star	1	6	9
Hexagon (6 sides)	2	7	0
Ring (donut)	3	8	1
Wedge (triangle)	4	9	2

Step 2 — Check the size tag

Do this for every gem.

1. Large gem (tag L)? Add 2. After 9 you start over at 0: 8 turns into 0, 9 turns into 1. A small gem (tag S) does not change.

Step 3 — Only for 4 gems

Only do this if there are 4 gems. Do it after you have all the numbers. Use the first rule that fits.

Use the first rule that fits.

1. If any two gems are the same shape, say the code backwards (last number first).
2. If no rule above worked, say the code just as it is.
1. Ask: "How many gems?"
2. Ask about each gem: shape, mark, tag.
3. Turn each gem into a number.
4. 4 gems? Do Step 3.
5. Say the code. The Agent types it and presses ENTER.

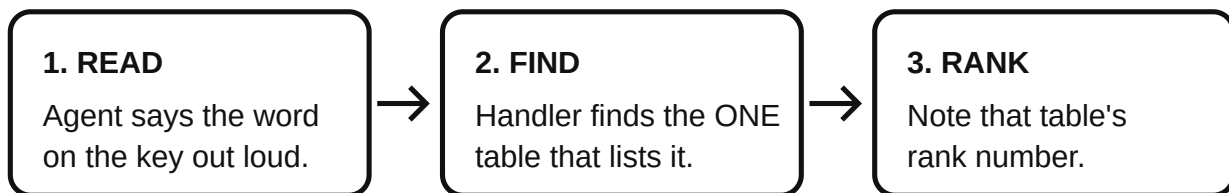

TIP Not sure about a gem? Ask again. Asking is smart! Have the Agent read the code back before ENTER.

PUZZLE 3

Code Room

Practices: Vocabulary & categories · Describing & directing · Clarifying & repair

The Agent sees keys with words on them. Each word fits one list below. Ask the Agent to read each word. Find each word's list. Then say which key to press. List 1 words go first. Locked keys show a number and a check mark.

Read the word. Find its list. Note its number.

1. Agent reads every word out loud.
2. Find each word in one list below.
3. Say the words in list order, one at a time.

Press order.

1. 1. Animals words go first.
2. 2. Tools words go next.
3. 3. Food words go next.
4. 4. Clothes words go next.
5. 5. Rides words go next.
6. 6. Weather words go next.
7. 7. School stuff words go next.
8. 8. Feelings words go next.
9. Two words from the same list? Press the word that comes first in ABC order.

TIP A word could fit two lists? Only one list really has it. Not sure? Ask the Agent to spell the word. Asking is smart!

Word lists

List 1 — Animals

Word
badger
camel
dolphin
ferret
gecko
heron (bird)
koala
moose
ocelot (wildcat)
otter
panda
raccoon
stallion (horse)

List 2 — Tools

Word
awl (spike)
clamp
crowbar
drill
hammer
lathe (machine)
mallet
pliers
saw
screwdriver
shovel
trowel (scoop)
wrench

List 3 — Food

Word
bagel
burrito
carrot
falafel (snack)
gnocchi (pasta)
mango
noodles
oatmeal
pancake
pretzel
quiche (pie)
taco
yogurt

List 4 — Clothes

Word
apron
beret (hat)
boots
cardigan (sweater)
gloves
hoodie
jacket
jeans
mittens
poncho (cape)
sandals
scarf
sweater

List 5 — Rides

Word
bus
canoe
ferry
gondola (boat)
helicopter
kayak
rickshaw (cart)
scooter
subway
tractor
truck
van
zeppelin (blimp)

List 6 — Weather

Word
blizzard
breeze
drizzle
fog
gale (windstorm)
hail
humidity (dampness)
lightning
monsoon (rainstorm)
rainbow
sleet
sunshine
thunder

List 7 — School stuff

Word
backpack
binder
compass (circle-drawer)
crayon
eraser
glue
highlighter
marker
notebook
pencil
protractor (angle-tool)
ruler
stencil (tracer)

List 8 — Feelings

Word
angry
anxious (worried)
bored
calm
cheerful
envious (jealous)
excited
grumpy
jealous
nervous
proud
reluctant (unsure)
silly

CAREFUL A wrong press makes the keypad start over. The words stay the same. Take your time.

PUZZLE 4

Password Intercept

Practices: Vocabulary & categories · Following directions · Clarifying & repair

The Agent sees a card number and five words. You have the card list. Ask: "What card number?" Find that card below. Read the rule and the clue out loud. The Agent picks the one word that fits.

SAME

the word means the SAME as the clue

OPPOSITE

the word means the OPPOSITE of the clue

MEANS

the clue tells what the word MEANS

The three card rules.

1. Ask: "What card number?"
2. Say the number back. Wait for "yes".
3. Find the card in the list. Read it out loud, like: "Card 15. Find the word that is the OPPOSITE of "ancient"."
4. Ask the Agent to read all five words.
5. Pick the one word together. The Agent taps it.

TIP Say the card number back before you decode. Not sure? Ask the Agent to say it again. Asking is smart!

Cards 1 to 10

Card	Rule	Clue
1	SAME	fast
2	SAME	happy
3	SAME	big
4	OPPOSITE	cold
5	OPPOSITE	day
6	OPPOSITE	open
7	SAME	begin
8	MEANS	a place where you borrow books
9	MEANS	frozen water
10	MEANS	the meal you eat in the morning

Cards 11 to 20

Card	Rule	Clue
11	OPPOSITE	loud
12	SAME	small
13	SAME	shout
14	OPPOSITE	empty
15	OPPOSITE	ancient
16	SAME	brave
17	OPPOSITE	rare
18	MEANS	a person who fixes teeth
19	SAME	error
20	OPPOSITE	expand

Cards 21 to 30

Card	Rule	Clue
21	MEANS	to say you are sorry
22	SAME	fragile
23	SAME	vacant
24	OPPOSITE	ally
25	MEANS	a drawing of a place that shows streets and borders
26	SAME	seldom
27	OPPOSITE	genuine
28	SAME	reluctant
29	OPPOSITE	abundant
30	SAME	candid

Cards 31 to 40

Card	Rule	Clue
31	MEANS	to make something less severe or easier to bear
32	SAME	diligent
33	OPPOSITE	novice
34	SAME	obsolete
35	SAME	prosper
36	OPPOSITE	timid
37	MEANS	lasting for only a short time
38	OPPOSITE	transparent
39	SAME	meticulous
40	OPPOSITE	hostile

CAREFUL A wrong word raises the alarm. You can try again. On an OPPOSITE card, a word that means the same as the clue is a trap.

PUZZLE 5

Alarm Bypass

Practices: Following directions · Describing & directing

The Agent sees four buttons with shapes and letters: Moon (C), Key (K), Bolt (B), Eye (E). The panel flashes some shapes. The Agent can replay the flash any time. Ask for the model code on the panel. Ask for the round number. The Agent says the flashed shapes. You use the right table below. It tells you which buttons to press.

Moon (C)

Key (K)

Bolt (B)

Eye (E)

The four shapes and their letters. Use shape and letter, not color.

TIP Have the Agent read the whole signal first. Then translate one shape at a time. Not sure? Ask for the letter!

1. Ask: "What is the model code?"
2. Ask: "What round is it?"
3. The Agent says the flashed shapes, in order.
4. Use that round's table. SEE is what flashed. PRESS is the answer.
5. Say the presses in order. The Agent presses them.

Model RK-2 — 2 rounds

Model RK-2, Round 1. The signal has 2 flashes. SEE → PRESS

SEE	PRESS
Moon (C)	Moon (C)
Key (K)	Key (K)
Bolt (B)	Eye (E)
Eye (E)	Bolt (B)

Model RK-2, Round 2. The signal has 3 flashes. SEE → PRESS

SEE	PRESS
Moon (C)	Key (K)
Key (K)	Moon (C)
Bolt (B)	Bolt (B)
Eye (E)	Eye (E)

Model AG-3 — 3 rounds

Model AG-3, Round 1. The signal has 2 flashes. SEE → PRESS

SEE	PRESS
Moon (C)	Key (K)
Key (K)	Bolt (B)
Bolt (B)	Moon (C)
Eye (E)	Eye (E)

Model AG-3, Round 2. The signal has 3 flashes. SEE → PRESS

SEE	PRESS
Moon (C)	Moon (C)
Key (K)	Eye (E)
Bolt (B)	Key (K)
Eye (E)	Bolt (B)

Model AG-3, Round 3. The signal has 4 flashes. SEE → PRESS

SEE	PRESS
Moon (C)	Eye (E)
Key (K)	Moon (C)
Bolt (B)	Key (K)
Eye (E)	Bolt (B)

Model MM-3 — 3 rounds

Model MM-3, Round 1. The signal has 3 flashes. SEE → PRESS

SEE	PRESS
Moon (C)	Bolt (B)
Key (K)	Eye (E)
Bolt (B)	Moon (C)
Eye (E)	Key (K)

Model MM-3, Round 2. The signal has 4 flashes. SEE → PRESS

SEE	PRESS
Moon (C)	Key (K)
Key (K)	Bolt (B)
Bolt (B)	Eye (E)
Eye (E)	Moon (C)

Model MM-3, Round 3. The signal has 5 flashes. SEE → PRESS

SEE	PRESS
Moon (C)	Eye (E)
Key (K)	Bolt (B)
Bolt (B)	Key (K)
Eye (E)	Moon (C)

CAREFUL A wrong press bumps the alarm. Only that round starts over. The flash stays the same. Replay it and try again.
